District Superintendent's Report

Percent New Trustees Completing Orientation

Our work during the 2008-2009 school year was driven by the theme for the year - "Blackville-Hilda Public Schools: Where Goals are Set and Challenges Met." We focused on six major areas: Academic Achievement, Instructional Technology, Parental/Community Involvement, Citizenship/Character Education, Goal Alignment between School and District, and Facility Improvement.

The instructional program was more rigorous and relevant with an emphasis on preparing students to meet state standards. Teachers received support from district staff, leadership teams, principals, consultants. instructional coaches, and specialists with a focus on analyzing data and monitoring instructional practices. Professional development was provided to advance the knowledge of staff and to assist them in working more effectively with students. Student success was our major goal for the year and we continue to research and evaluate achievement and performance through standardized and informal assessments. Awards programs were held at the end of each nine-week reporting period to reward students for their accomplishments.

We received an E2T2 grant which provided laptops for all of our students in grades 7 and 8. This grant also allowed us to add a technology coach to work with our students, parents, teachers, and staff on utilizing technology to support instruction. Promethean Boards were used in classrooms at each school as an interactive tool to engage students in the learning process.

A parent group, Parents and Leaders United for Success (PLUS), was organized to meet monthly with the superintendent to share ideas and make suggestions. Communication with parents and community members was improved through the implementation of "AlertNow," a phone recorded message system, and a newly designed web page.

In keeping with our mission, we set a goal to emphasize the importance of citizenship, character, service, and good behavior. Clubs and organizations in each school incorporated these components in their work for the year.

The District Leadership Team met weekly to ensure coordination of activities to align school and district goals. A new five-year facility improvement plan was developed with work already underway to address needs, modify existing structures, and guarantee that our students and staff have access to a safe, clean, and structurally sound learning environment.

We have enjoyed the benefits of team work and collaboration. It takes everyone working together with shared plans and goals to realize positive results. With continued support and cooperation, we anticipate reaching our goals and meeting all challenges with optimism and determination. Thank you for your role in the educational process at Blackville-Hilda Public Schools.

Sincerely. Teresa Larke Pope, Ph.D. Superintendent
